

B5 Jesus Is Transfigured, Mark 9:2-10, Second Sunday in Lent

God transfigured Jesus. He made light rays come from all parts of his body. God can change you, too. If you want to do your chores without being grouchy, God can shine his light your way. If you want to keep your room cleaner, God's light can show you where you need to clean. If you need a new place to sleep, God's light can show you the way to it. God will help you change to the better. Just ask him.
