Love God with your whole heart. Loving God with your whole heart means forgiving yourself for your mistakes. Loving God with your whole heart means forgiving your little brother for breaking your favorite music box. Loving God with your whole heart means helping your sister learn to tie her shoes. Helping others even when you are sad is loving God with your whole heart. What you do for others, you do for God. God wants you to have a great life. God loves you. Love him. He will show you the way.
